

# New Hire Reporting Program

---

## Free Information Session

Presented by Dennis Marsh, Statistician Supervisor 1  
*Department of Labor & Industry | Center for Workforce Information & Analysis*

**Monday, November 19, 2018**  
9:00 A.M. - 11:00 A.M.

**PA CareerLink® of Lancaster County**  
1016 N. Charlotte Street  
Lancaster, PA 17603

New hire reporting benefits both children and employers—through increased child support collections (between \$30 million and \$50 million per year) for dependent children, and fraud detection in UC and Workers' Compensation claimant data (for employers, with over \$37 million in recouped overpayments since 1998).

These results only take place if employers are aware of the New Hire Reporting Program, and the federal and state laws that mandate they report their new hires to the Commonwealth. This event will focus on the New Hire Reporting Program, including how to report new hires using the PA CareerLink® website.

**Contact for Registration or Questions:**

Amber Mirza, Recruiter Supervisor
